DETAILED ACTION

1. This action is responsive to Amendment after Final filed April 12, 2005.
2. Claims 1, 3-5, 7-8, 10-24 are pending.

Response to Amendments

3. Per Applicants' request, claims 2, 6 and 9 have been canceled.
4. In view of Applicants' cancellation of claim 6, which is a duplicate of claim 5, the objection to claim 5 is withdrawn.
5. In view of Applicants' amendments to claims 1, 7, 10 and 11 to direct these claims to statutory subject matter, the rejection of these claims and their dependent claims under 35 U.S.C. § 101 is withdrawn.
6. Applicant's arguments, see Remarks, pp. 12-14, filed April 12, 2005, with respect to claims 1, 3-5, 7-8, 10-24 have been fully considered and are persuasive. The rejections of claims 1, 7-8 and 10-24 under 35 U.S.C. § 102(e) as being anticipated by Wohl et al. and of claims 3-5 as being unpatentable over Wohl et al. in view of CCITT, Recommendation X.722, Information Technology – Open Systems Interconnection -- Structure of Management Information Information: Guidelines for the Definition of Managed Objects ("CCITT") have been withdrawn.

EXAMINER'S AMENDMENT

7. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tim Cremen, Reg. No. 50,855, on April 29, 2005.

The application has been amended as follows:

Claim 1: at line 6, delete “and” at the end of the line;

Claim 8: delete “using the first information model to generate one or more product-specific information models by selecting one or more first parameters;

storing the one or more product-specific information models in a computer running a third database;

using the one or more product-specific information models to generate one or more product profiles or a comparison of two or more product profiles and; ”

Claim 10: at line 9, delete “and” at the end of the line;

Claim 11: at line 8, delete “and” at the end of the line;

Claim 12: at line 9, insert a semi-colon -- ; -- after “comparison of two or more product profiles” and delete the semi-colon “ ; ” at the end of the line after “and”;

Claim 13: at line 9, insert a semi-colon -- ; -- after “comparison of two or more product profiles” and delete the semi-colon “ ; ” at the end of the line after “and”.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

9. Claims 1, 3-5, 7-8, 10-24 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record, i.e., Wohl et al. and CCITT, taken alone or in combination, fail to teach a process for generating information models comprising, *inter alia*, the following features:

“incorporating definitions of a plurality of subcomponents of an overall system to generate a first information model in coded form in a first description language;

using the first information model to generate one or more product-specific information models by selecting one or more first parameters;

using the one or more product-specific information models to generate one or more project-specific information models by selecting one or more second parameters.”

Instead, Wohl et al. teaches conversion of simplified behavioral models of memories of simulation libraries into structural models that include automatic test pattern generation (ATPG) memory primitives.

CCITT teaches guidelines for the definition of managed objects. CCITT, however, fails to cure the deficiencies of Wohl et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
